Pack 4

Fun for everyone

Gorilla Club

Here's some fun and creative activities for the
whole family to enjoy.

Salt dough

10 minutes
Preparation

3 hours
Drying

IMPORTANT
DO NOT EAT
This recipe is for
crafting clay and
is not edible.

You will need

Permission
from an
adult

1/4 cup
Salt

1/2 cup
Warm tap water

1/4 teaspoon
Vegetable Oil

1 cup
Plain flour

Method

1. Mix the flour and salt together in a bowl.
2. Add water bit by bit until you create a stretchy dough.
3. Add the vegetable oil and knead like a pizza dough! **TIP:** if the mix is too sticky then add flour. If it is too dry then add water.
4. Create the shape of your masterpieces. **TIP:** you could roll the dough out flat and cut out shapes. The thinner the dough, the quicker it will dry out and be ready to paint.
5. Bake your creation in the oven at around 120 degrees C for roughly 3 hours. (**ADULT TIP:** bake on as low a temperature as possible until dried all the way through.)
6. Leave to cool.
7. Paint with craft paints. You could even add a gloss varnish.
8. You could sell these as a fundraiser for the Ranger Appeal! Whatever you do with your masterpiece, don't forget to show us your photos.

#CRGPGorillaClub

Cameroon flag

CHALLENGE: collect objects that are the colours featured in the flag of Cameroon. Assemble the pieces together on the floor to create a flag made from objects.

You might have to think outside the box to find objects that are suitable. Maybe there are things in your bedroom that you can use or ask an adult to help you find objects that you are allowed to borrow. These could be from around the house or even outside!

Here are some ideas:

- Blanket
- Bananas
- Tennis ball
- Cereal box
- Plastic cup
- Toy car
- Plants
- Books
- Wellies
- Cushion
- Playing cards
- Recycled bottles
- T shirt
- Hat or scarf

Ask for permission from an adult before moving things!

What will you find?
Tag us in your photos to feature in our e-letter. We would love to see what you have created.

Here is one we made at Gorilla Club HQ

In the style of Angu Walters

Let's recreate our own Nature Arts and Crafts workshop like we saw in the **Project Preview**.

Focus animals: Nigerian-Cameroon chimpanzee, Drill & African forest elephant

Threat: Illegal Wildlife Trade

Art activity: A very special step by step guide has been created for you to produce a masterpiece *in the style of Angu Walters*.

Angu is a famous artist from Cameroon who loves bright colours, abstract shapes and pattern making.

1. First of all, you'll need to print out a template of one of the three Lebialem Life animals threatened by IWT. You'll find these at the end of the instructions.

2. Print out ready!

- Draw 6 circles on the page
- Some on top of the animal
- Some in the blank space around the animal

3. Draw some lines across the page
- Make sure these do not go over the animal
 - They can go through the circles, in fact it looks good if some do!
 - They don't all have to stretch from one side of the page to the other

4. Draw lines DOWN the page
- Again, don't draw these over the animal
 - Start drawing from the edge of the page, stopping when the pencil touches the animal
 - Remember, the lines don't need to stretch from the top of the page to the bottom. Try starting and stopping at different 'across' lines

In the style of **Angu Walters**

5. Now we get to draw **OVER** the animal!

- Draw a curved line across the upper part of the animal, making sure you start and end your pencil in a corner you've drawn
- Do the same, this time on the lower part of the animal
- One more curved line, this time make sure it goes over one side of the animal

6. Stop drawing over the animal!

- Add some small circles, these can overlap lines, fit inside rectangles or even inside circles you already drew
- Add some small curves from the edge of the page to the edge of your animal
- If there are any large spaces you think look plain, draw some leaf shaped curves inside the rectangles

Take a close look at the example for some inspiration here. It really is simple to do.

7. Decorating! Again, you can look at the example here for inspiration on this step but it is completely up to you what you do

- Try to avoid decorating your animal too much, focus on the background
- Take a blank space and fill it with a pattern
- Triangles, diamonds, curvy lines, shapes inside shapes, diagonal lines, whatever you like!

Notice on your print out we have already added a Walters style eye to your animal.

8. The last step is to add lots of colour
- Where a line cuts through a shape, change the colour! See how the arms of the animal in the example are lots of different colours. This helps recreate the Walters style.
 - Here, we used bright and warm colours on the background and cool, dark colours on the animal
 - We used black in a few random shapes but not much!

Gorilla maze

Remember in **Pack 1**, we learnt that the survival of Cross River gorillas was threatened by fragmentation? This means there are lots of small areas a gorilla can use instead of one larger space they can share with other gorillas.

As part of their job, Rainforest Rangers protect wildlife corridors. The purpose of a wildlife corridor is to join up the small areas so gorillas can move freely between them.

CHALLENGE: Try to help this Cross River gorilla through the maze, to meet with another group of gorillas in the forest.

Fragmentation: multiple small and isolated areas in the rainforest created by cutting down trees.

Wildlife corridor: areas of habitat that connect to each other, joining up the small, isolated areas

Colour me in!

Illustration by Shannon Bowes

CHALLENGE: LEVEL UP! This one is more tricky... give it your best shot!

Sharing 98%

FUN FACT: Humans and gorillas share 98% of their DNA! The CRGP logo features a gorilla hand and human hand reaching out to touch each other.

CHALLENGE: in the style of our logo, draw half of your face and your hand in the gorillas reflection. Then colour in your masterpiece as neat as possible!

Can you believe it?

You've completed
Pack 4

Don't forget to colour in the final leaf on the progress chart!

You are officially a
CRGP Champion

Don't forget to share

We would love to see all the work you complete! Please ask an adult to share as many photos with us as possible on Instagram, Facebook or by email.
