Use this template on a card like material to create your own masks. You pick the colour, or how to decorate. Collage? Paint? Colouring?

1. Cut out the outer line and use as a template for the head.
2. Cut out the middle shape for the facial features. Use this as a template or stick it straight on your gorilla head and decorate yourself.
3. Craft away!
4. Ask an adult to cut out eye holes.
